Tel: (209)267-5370

March 4, 1998 - June 2, 2000 - \$12/h

Designed blueprints for septic systems using the programs AutoCAD14 and AutoCAD2000. Spent much of the time checking final blueprints for errors and preparing the final reports. Most of the time I worked with topographies, on occasion I did mechanical, and architectural drafting. I was also responsible for keeping our stock of supplies and equipment up to date and ready. Many time I would go out on the field to perform percolation tests or help survey land. I would also help get soil samples that required working as a team with a drill rig.
